About this property

We are very pleased to present Mirador del Sol, an exceptional project consisting of a total of 24 newly built villas, where you can choose your ideal home from several models and design it according to your needs. The standard villa has 126 m2 built on two floors and is built on plots of 304 to 472 m2. The ground floor consists of a spacious and bright living room with an open kitchen, a large bedroom with built-in wardrobe and a bathroom. From the living room and bedroom you have direct access to the garden and the pool. The upper floor offers two large bedrooms, one with a built-in wardrobe and the other with a dressing room and an en suite bathroom. On this floor there is a third bathroom and from both bedrooms there is direct access to a large sunny terrace with fantastic views of the surroundings and the Mediterranean coast. It is possible to upgrade your villa with a large basement that can be used as an extra living room, bedroom, gym, wine cellar or simply as a large garage…
